

May 9, 2000

Mr. Wayne Wiethe
City of Green Planning Dept.
P.O. Box 278
Green, OH 44232-0278

SUBJECT: Meeting to discuss the Upper Tuscarawas River Watershed Action Plan
and Cost Analysis

Dear Mr. Wiethe:

Thank you for your interest in meeting on May 18, 2000 to discuss our Upper Tuscarawas River Watershed Action Plan. We hope that, through discussion, we can identify specific actions that will be feasible and beneficial for the City of Green.

Enclosed is a draft copy of the Action Plan, a draft of the associated Cost Analysis Table, and an Executive Summary of the full report. Please review these documents to familiarize yourself with their contents and share them with whomever you feel appropriate prior to our meeting. You may also find it helpful to review the full report. Please contact me at (330) 836-5731 if you are unable to locate the copy sent to the City.

Costs assigned to specific actions are examples but may provide some insights regarding the feasibility of implementation. The Action Plan also includes possible funding sources. Certainly, the feasibility of implementing a given action is contingent upon the availability of resources. After developing a potential strategy for the City of Green, it will then be possible to investigate funding opportunities.

Thank you again for expressing interest in meeting with Claude and myself. We look forward to speaking with you on May 18, 2000.

Sincerely,

Jon Zangwill
Environmental Planner
